

# PM Multicultural

Nelson readers meticulously redesigned for our diverse cultural classrooms.

Crafted from a selection of highly successful Nelson readers, **PM Multicultural** features a collection of alphabet books and fiction and non-fiction texts for levels 1–20. Each book comprises authentic Middle Eastern settings which children can relate to, with stunning illustrations and photographs featured throughout.

## PM Alphabet Starters

The 26 *PM Alphabet Starters* provide an in-depth understanding of letters and the sounds they represent for emergent readers and English language learners.

The *PM Alphabet Starters* contain five or seven words that begin with the same letter, allowing students to concentrate on one letter-sound at a time. Clear, readable text and stunning images feature throughout.

Reading the books, students are also able to practise the valuable skills of word and picture matching, one-to-one matching of spoken and written words, and aural reinforcement of the onset sound in each set of words.

Vowels and consonants feature a different strip of colour down the side of the front cover: vowels are orange and consonants are blue.

*PM Alphabet Starters Pack (26 Books): 9780170170482 \$180.00*

## PM Alphabet Blends

An extension of the *PM Alphabet Starters*, the *PM Alphabet Blends* teach students the more complex skills of blending consonants and recognising digraphs.

*Hearing* the sounds, *saying* the sounds, *reading* the sounds and *writing* the sounds of blends and digraphs in *PM Alphabet Blends* help students learn both the phoneme (sound) and visual appearance of each consonant blend and digraph.

The *PM Alphabet Blends* are designed to be used in conjunction with the *PM Levelled Texts*, in which the same blends and digraphs are found. When used collectively, a meaningful context is created where young readers can make associations that will be remembered.

*PM Alphabet Blends Pack (34 Books): 9780170170499 \$239.50*

## Levelled texts

The *PM Levelled Texts* are a set of 100 books for levels 1–20, with five books per level. The texts feature genuine Middle Eastern settings.

Each text features:

- built-in logic which develops reasoning and prediction
- meticulously levelled fiction or factual text to ensure a gradual learning gradient
- deliberate close match of text with illustrations and photographs to help students interpret and derive meaning from the text
- teaching notes on the inside front cover.

Barq's Race, PM Yellow Level 6

Healthy Living, PM Purple Level 19

Football at School, inside front cover notes

**Levels 1 and 2:** Texts focus on two or more high-frequency words with a high repetition rate.

**Levels 3 to 5:** New high-frequency words are introduced gradually and reinforced throughout books at the same and succeeding levels, while sentence construction is kept short and simple.

**Levels 6 to 10:** Texts continue to increase the number of sight words known to students. Sentence construction becomes gradually more complex and a more diverse range of language features are included.

**Levels 11 to 15:** Texts continue to build sight word recognition. The range of content extends to explore a wider range of themes such as Values and Beliefs, Identity and Humans and the Environment. Factual texts develop greater complexity in structure and content. Students are given situations which they can relate to but are gradually introduced to environments and culturally appropriate concepts beyond their immediate experience.

**Levels 16 to 20:** High Frequency word knowledge and recognition continues to grow. Sentence structure becomes more challenging with two clauses appearing within the sentence, adverbial clauses are specifically developed. Familiar suffixes, particularly those signalling tense are reinforced and built upon. Themes are explored more deeply.
