# INTRODUCTION TO ACCOUNTING FOR NON-MAJORS

## ACCOUNTING: INFORMATION FOR BUSINESS DECISIONS, 4E

Cunningham | Nikolai | Bazley |

Kavanagh | Simmons | James

ISBN: 9780170446242

560 pp | Paperback | eBook ©2021

**NEW EDITION**

A business-focused introduction to accounting for all students – not just those intending to be accounting majors. Departing from the traditional approach taken by other textbooks, students apply both managerial and financial approaches within the topics examined in each chapter. The conversational writing engages students in the theoretical content and how it applies to contemporary real-world scenarios.

- Show students how accounting works in a chapter-by-chapter coverage of a real-world business; long-form business case study – Café Revive – continues throughout the text
- Students apply accounting knowledge and critical thinking skills to solve an everyday problem with end-of-chapter 'Dr Decisive' letter
- *MindTap* for Cunningham's *Accounting: Information for Business Decisions* includes Polling Activities based on the in-text 'Dr Decisive' feature, Revision Quiz questions, Concept Check Questions, and more video content with this edition – the six 'Why it matters' whiteboard animation videos in the previous edition are now joined by six more video explanations

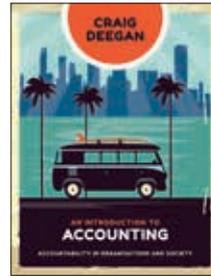

### NEW TO THIS EDITION

- 'Business issues and values' feature boxes presents students with a business dilemma and encourages students to think about ethical and environmental issues
- New end-of-chapter-materials enhance and refresh assignment content
- Learning objectives more closely aligned to chapter structure

## AN INTRODUCTION TO ACCOUNTING: ACCOUNTABILITY IN ORGANISATIONS AND SOCIETY, 1E

Deegan

ISBN: 9780170418737

744 pp | Paperback | eBook ©2020

**NEW**

Written to IFRS by one of ANZ's premier sustainability and social accounting academics, *An Introduction to Accounting: Accountability in Organisations and Society* brings today's accounting hot topics of corporate accountability, sustainability and social responsibility to life with the only complete textbook created from the ground up for these modern accounting teaching and learning concepts.

- Describes the notion of accountability in society and teaches Management Accounting before Financial Accounting, so students get the context for Financial Accounting up front and understand it better
- Uses a unique 4-step model to demonstrate how the responsibilities and accountability of an organisation affect the way its 'accounting' is undertaken
- The innovative online case study using text and video integrated with the content in the book follows an organisation that is initially established by two friends and grows into a large company. By using one organisation, students see how the 'accountability' and 'accounting' change as the organisation itself changes and adapts to different environments with different expectations and accountabilities
