

MindTap Quick Start Guide

Foundations of Nursing: Enrolled Nurses

Susie Gray, Leanne Ferris, Lois Elaine White, Gena Duncan, Wendy Baumle

Designed for the Diploma of Nursing, Foundations of Nursing, Enrolled Nurses, Australia and New Zealand edition is mapped to the HLT54115 training package competencies and aligns to the revised Standards for Practice for the Enrolled Nurse. Written to equip the enrolled nurse with current knowledge, and basic problem-solving and critical-thinking skills, the text clearly explains concepts and definitions, and scaffolds knowledge. The student-friendly text provides a clear and fresh approach to the study of nursing; it is straightforward and heavily illustrated with colour photos of procedures.

3 Key Features

Activity	Where to find it – an example	What is it	Why it matters
Video Quizzes	<ol style="list-style-type: none"> 1) Part 3: Communication 2) Chapter 8: Communication 3) APPLY 4) Skills video quiz: Communication with the health care team – Clinical handover 	<p>Video Quizzes</p> <p>Brief, active and entertaining video lessons with assessment give students an introduction to the clinical skills that you will be explaining in class. It can also give them the ability to get a quick review or go over topics they may find challenging when studying. Students are assessed as they progress through the videos to evaluate their level of understanding.</p>	Review theory and take the video quizzes to demonstrate performance evidence
Animations	<ol style="list-style-type: none"> 1. Nursing Toolbox 2. Animations 3. Asthma <p><i>See it in the Cengage Mobile app</i></p>	<p>Animations</p> <p>Detailed animations that teach core concepts with interactive elements, narrated audio, and non-graded concept checks. In selected chapters only, where relevant</p>	Media-rich demonstrations of core concepts enhance the student learning experience
Case Study	<ol style="list-style-type: none"> 1. Part 2: The health care environment 2. Chapter 7: Arenas of care 3. APPLY 4. Case study: Jack, 75-year-old male with chronic wound <p><i>See it in the Cengage Mobile app</i></p>	<p>Case Study</p> <p>Features real-world examples illustrating how the key chapter concepts are applied in a nursing context. These include questions which encourage students to further apply their knowledge.</p>	Students reflect and apply knowledge contextualised from the volume of learning

MindTap Learning Path

Foundations of Nursing 2nd edition

Susie Gray, Leanne Ferris; Lois White, Gena Duncan, Wendy Baumle

Learning path location	Activity	How many	What is it	Seat time	Why it matters
NURSING TOOLBOX	Heart and Lung Sounds audio clips, and Video and Animation Library	Whole of book resource	The library of heart & lung sounds, and video library, provide students with real-world resources to extend their study of nursing.	Varies by student	Real-world examples of nursing concepts provide students with context for their learning in the real world.
ENGAGE	What you will learn in the Chapter	32	Introduces the chapter content and what the student will learn in the unit. Also, Essential Clinical Skills relevant to the unit are introduced	5 minutes	Introduces key chapter concepts and empowers the student to learn.
LEARN	Chapter reading activities	In all chapters	This is where the core text content lives. It is an interactive eReader with integrated tools for students and instructors, including interactive figures that help bring concepts to life. Students can search, jump to sections, highlight, take notes, have the text read aloud, define words and more.	Varies by student	This interactive eReader serves as a foundation and reference of content for the course
	Concept Check Quizzes (in-line)	In all chapters	Concept Check Quizzes are automatically graded assignments that assess students' basic understanding of key concepts presented in each section of the chapter.	2-3 mins per quiz (multiple quizzes per chapter)	These questions ensure that students are familiar with basic concepts before coming to class, so you can go further with the time you have, building upon that base level of knowledge.
	Videos	18	Short, fast-paced videos that are embedded throughout the interactive eReader. In selected chapters only, where relevant (see Digital contents overleaf).	Varies – 3-5 minutes	Students often struggle with understanding nursing terminology and concepts. These quick videos address this challenge in a fun, educational way.

Learning path location	Activity	How many	What is it	Seat time	Why it matters
	Animations	13	Detailed animations that teach core concepts with interactive elements, narrated audio, and non-graded concept checks. In selected chapters only, where relevant (see Digital contents overleaf).	Varies – 3-5 minutes	Students gain understanding from alternative media-rich explanations of core concepts and self-assessment.
APPLY	Case Studies	In all chapters	Features real-world examples illustrating how the key chapter concepts are applied in a nursing context. These include questions which encourage students to further apply their knowledge.	Varies by student	Students learn how key concepts are important in a range of scenarios.
	Video quizzes	26	Brief, active and entertaining video lessons with assessment give students an introduction to the clinical skills that you will be explaining in class. It can also give them the ability to get a quick review or go over topics they may find challenging when studying. Students are assessed as they progress through the videos to evaluate their level of understanding. In selected chapters only, where relevant (see Digital contents overleaf).	3-7 minutes each	This resource offers an insight into clinical that are closely aligned to the pedagogy and purpose of the text.
REVISE	Chapter resources and activities	32	This section recaps key chapter material, provides Review questions and Critical Thinking questions to assess student understanding of key elements and criteria of the competency unit	5 minutes	Strengthens student understanding of key chapter concepts. Provides revision and extension opportunities ahead of final assessment.
	Revision Quizzes	32	Interactive quizzes covering all chapter concepts are applied to nursing scenarios and are automatically graded.	15 minutes each	These quizzes help to move students beyond basic understanding, requiring them to apply their knowledge rather than simply recalling information from the chapter.

Learning path location	Activity	How many	What is it	Seat time	Why it matters
ASSESS	Test bank	32	Instructor assignable questions. Each chapter has approx.: 20 multiple choice questions	Varies by set assessment	These assessment questions help you create, customise and deliver tests in minutes.

Digital contents

Foundations of Nursing 2nd edition

Susie Gray, Leanne Ferris; Lois White, Gena Duncan, Wendy Baumle

Topic/Chapter	Digital activities and resources
Chapter 3 <i>Holistic Care</i>	Animation: The endocrine system
Chapter 8 <i>Communication</i>	Skills video quiz: Communication within the health care team - Clinical handover
Chapter 9 <i>Client education</i>	Skills video quiz: Health care teaching
Chapter 10 <i>Nursing process/documentation/informatics</i>	Skills video quiz: Effective Documentation Principles - documentation on paper
Chapter 15 <i>Wellness concepts</i>	Animation: Asthma
Chapter 20 <i>Safety and hygiene</i>	Skills video quiz: Use body mechanics, walking devices and restraints: mobility assistance Skills video quiz: Provide for a client's bathing and personal care needs - Peritoneal care is the cleansing of the external genitalia
Chapter 21 <i>Basic nutrition</i>	Skills video quiz: The Nursing Process and Nutrition - nasogastric tube Animation: Digestion Animation: Dual roles of the pancreas
Chapter 23 <i>Chronic health conditions</i>	Animation: Asthma Animation: Respiration Animation: Respiratory safeguards Video: Symptoms: coronary artery disease Video: Diagnosis: coronary artery disease
Chapter 24 <i>Caring for clients with mental health conditions</i>	Skills video quiz: Conducting initial and ongoing clinical observations - Mental status assessment
Chapter 26 <i>Infection control/asepsis</i>	Skills video quiz: Nursing Process - sterile gown Skills video quiz: Nursing Process - antiseptic scrub Animation: Infectious diseases Animation: The skin Animation: Layers of the skin Animation: Infectious diseases Animation: Structure of the immune system Video: Chain of infection Video: Precaution: contact airborne droplet- full barrier Video: Infection control: hepatitis and HIV Video: Infection control: tuberculosis Video: Precaution: contact airborne droplet - full barrier
Chapter 27 <i>Wound care</i>	Skills video quiz: Team approach to planning care - ANTT

Topic/Chapter	Digital activities and resources
Chapter 28 <i>Fluid, electrolyte and acid-base balance</i>	Skills video quiz: Nursing care - Vital signs Skills video quiz: Metabolic and respiratory acidosis and alkalosis Animation: The endocrine system Video: Hemothorax Video: Ventricular fibrillation Video: Ventricular tachycardia
Chapter 29 <i>Medication administration and IV therapy</i>	Skills video quiz: Nursing process and procedures for medication administration - Oral administration Skills video quiz: Nursing process and procedures for medication administration - Eye drops Skills video quiz: Drug Action Skills video quiz: Specimen collection and laboratory tests Skills video quiz: Nursing process and procedures for medication administration - IV therapy Animation: Exocrine and endocrine Animation: Injections Animation: Calculating dosage Animation: Injections Animation: Parenteral injections (administering) Video: Acute respiratory distress syndrome Video: Thrombus DVT embolism
Chapter 30 <i>Assessment</i>	Skills video quiz: Specimen collection and laboratory tests – Urinalysis Skills video quiz: Head-to-toe assessment - Pulse measurement Skills video quiz: Head-to-toe assessment - Pulse oximetry and atrial fibrillation Skills video quiz: Head-to-toe assessment - neurological assessment Skills video quiz: Head-to-toe assessment - Neurovascular observations Skills video quiz: Planning/outcome identification for safe care Animation: Respiration Animation: The skins Video: Atrial flutter Video: Atrial fibrillation
Chapter 31 <i>Pain management</i>	Skills video quiz: Non-pharmacological pain relief Skills video quiz: Pain assessment
Chapter 32 <i>Diagnostic tests</i>	Skills video quiz: Electro-diagnostic studies - 12 lead electrocardiogram Animation: Urine formation Animation: Cystoscopy Animation: Laparoscopic examination Animation: Magnetic resonance imaging (MRI) Video: What is a pulmonary embolism Video: Diagnosis: coronary artery disease Video: Pleural effusion Video: What is a pulmonary embolism
