

NELSON PROFESSIONAL LEARNING WORKSHOPS

PRESENTED BY CARMEL SMALL, PROFESSIONAL DEVELOPMENT CONSULTANT

PM: Understanding Levelled Texts

FREE
SESSION

(90-MINUTE SESSION)

This will be a practical session focussing on how levelled texts actually work. We will look at the highly successful criteria that underpins the *PM* levelling system, and debunk the myth that all levelling systems are the same, as we examine what actually makes a level.

The session will cover:

- the criteria underlying the gradient of difficulty as children move through the 30 levels
- what needs to be taught within levels to move children from one level to the next
- how to effectively place children at a level so that teaching and learning are maximised.

Revisiting Guided Reading

(FULL-DAY SESSION)

This is a full-day practical session focussing on the important strategy of guided reading. We will look at accurately matching children to text and analysing a record of reading on all three levels. We will examine how to carry out guided reading instruction using levelled texts, and how to organise the classroom for guided reading sessions.

The day will cover:

- the Balanced Reader model
- the Gradual Release of Control model
- how to take an accurate record of reading
- how to identify what needs to be taught in a guided reading group
- the importance of accurately levelled texts and how they support readers
- linking reading and writing
- organising the classroom for guided reading instruction.
