PM: Understanding Levelled Texts

(90-MINUTE SESSION)

This will be a practical session focussing on how levelled texts actually work. We will look at the highly successful criteria that underpins the *PM* levelling system, and debunk the myth that all levelling systems are the same as we examine what actually makes a level.

The session will cover:

- the criteria underlying the gradient of difficulty as students move through the 30 levels
- what needs to be taught within levels to move students from one level to the next
- how to effectively place students at a level so that teaching and learning are maximised.
