## UNDERSTANDING LEVELLED TEXTS

90-MINUTE SESSION

FREE  
SESSION

This will be a practical session focussing on how levelled texts actually work. We will look at the highly successful criteria that underpin the **PM** levelling system, and will debunk the myth that all levelling systems are the same as we examine what actually makes a level.

### The session will cover:

- the criteria underlying the gradient of difficulty as students move through the 30 levels
- what needs to be taught within levels to move students from one level to the next
- how to effectively place students at a level so that teaching and learning are maximised.
